(By M. L. SCHWARTZ)

[illegible]

Others are just as much interested in the book. Dr. J. Futcher at the same session, thinking history will bear me out in the invention of any one weapon that stopped war," commented Vice-Marshall E. W. Stedman, C.B.E., in the course of giving impressions of the atomic bomb. He said, "If the world is to have a permit, we think the best way to get a good come back by 'O'Y' all over the world," declared Ottawa Miss Cornelia Van Ach and Wijk, of Holland, Interim President, World Council, Y.W.C.A. "The best way to write a novel is to spend the seat of the pants to the story," said the author of the book. "I was the advice of the well-known Canadian author, Thomas H. Hall, in addressing the Canadian Authors Association in this capital. "We in Canada have not mastered the art of living," Mr. Henri M. Monod, distinguished Canadian author, said, "large audience in Ottawa." "I am very glad to see you here," he said, "very fortunate."

FLAVOR

THE SECRET OF TASTY MEALS

Flavor makes all the difference between a good meal and a bad one. The secret of adding the right amount of flavor to your meals is simple. It's in the use of the right flavoring extracts. And now you know "their" secret, you will appreciate the difference.

H.L. MACKINNON CO., LTD., WINNIPEG

Flavoring Extracts

WORLD HAPPENINGS BRIEFLY TOLD

R. H. Turk has been appointed British consul general at Kingston, Ontario, vacant since 1912.

Eight thousand tons of barley—more than the entire barley crop of the United States—were shipped to the food shortage in India—arrived recently at Karachi.

Herbert Morrison, head president of the Council, says smoke pollution in Great Britain costs £90,000,000 (\$200,000,000) annually.

A report by the board of grain commissioners at Winnipeg indicated that the western barley crop will meet the quality standards required of U.S. to export.

Among those who congratulated the late Mrs. C. O. D. Shaw of Lethbridge, N.Y., on her eightieth birthday was her mother, Mrs. Mary Winder Gilman, 97.

More than 600 cloaks stolen by the German during the war from Berlin municipal buildings and churches have been recovered in a hiding place near Hamburg.

Until the permanent post-war strength of the Royal Australian Air Force is determined, the R.A.F. will keep on 33,000 men, according to a London government announcement.

Under a voluntary plan of retraining them with United States citizenship if they prove worthy, approximately 150 German engineers and technicians have been taken to U.S. to work.

Outlook Is Good

People of Britain Help Greatly in Solving Economic Problem

More than 600 cloaks stolen by the German during the war from Berlin municipal buildings and churches have been recovered in a hiding place near Hamburg.

Until the permanent post-war strength of the Royal Australian Air Force is determined, the R.A.F. will keep on 33,000 men, according to a London government announcement.

Under a voluntary plan of retraining them with United States citizenship if they prove worthy, approximately 150 German engineers and technicians have been taken to U.S. to work.

This plan is based on the principle of co-operative effort between the three chief countries of the world—the United States, Britain and Germany, and the competition of these three great nations for the world's business.

With Army approval, an effort was put forward by the Winter Fuel Committee in London to force it to be done—because it couldn't round up enough satisfactory houses in Canada to house the homeless.

Official estimate it would require an outlay of roughly \$80,000,000 to get the Army the 18-odd houses needed to house the homeless.

The olders are, they say, that it would be a fair share of the cost. In 1948 it would have an outlay of \$100,000,000 to get the Army the 18-odd houses needed to house the homeless.

As one first boy, they recall that the homecoming competition for the show them, without a Canadian Army Award there were record attendance this Fall.

As the home is out. In the United States and European countries, the home is out. In the United States and European countries, the home is out.

There are some of his own experience, he said.

"I was just in time to stop the telephone lighting a cigarette and lighting the match."

"There was a very charming young lady who came to my attention from the 'Chocolate Soldier' who had been played on the organ at my wedding."

"I have had a stand waiting in the middle of the service while the couple entered in the long, lingering line."

"I have had a stand waiting in the middle of the service while the couple entered in the long, lingering line."

"All this, of course, is most unbecoming," he wrote.

"Sometimes after a wedding I have had the awful feeling that the bride and groom would have done much better to have married at the register office."

BUILDING AIRCRAFT

Australia is to produce British Vought jet-propelled fighters, four turbo-prop engines. Australia is at present producing Mustang fighters, four turbo-prop engines. Australia is at present producing Mustang fighters, four turbo-prop engines.

SOME SERVICE

During the time of Lord XVI, men of rank required four footmen to serve a cup of chocolate. One carried the tray, another the chocolate, a third presented the cup, and the fourth stood in waiting with the napkin.

BEAVER TRAPPING

ST. JOHN'S, Nfld.—For the first time in 25 years the Newfoundland government has decided to permit the trapping of beavers, which it has been threatened with extermination.

The government, estimating that the beaver population in the province is 10,000, has decided to issue beaver trapping licenses to about 100 trappers. Each trapper will be allowed to take 10 beaver which will be turned over to the department of natural resources.

On delivering the skins the trapper will be paid \$10 a pet. He will be paid the balance after the department has completed the marketing.

It is estimated that the skins will each bring about \$40.
